

PATHOS ILLUMINATED BOLLARD

Product Code: SFD581

PRODUCT DESCRIPTION

The stylish Pathos Illuminated Bollard is a contemporary design which will suit any outdoor location. The integrated lamp and clear tubular lens provide impressive lighting to the surrounding area.

This Illuminated Bollard has a IP44 rating which means that the lamp will withstand outdoor environments.

If you choose the optional photocell system this makes the bollard automatically switch the lamp on at dusk and off again at dawn to add further energy saving.

The Pathos path light is crafted from high quality marine grade stainless steel (G316) and is a contemporary, elegant 600mm bollard light. It is available in heights of 0.6m or 0.8m. Ideal for any location while adding a touch of class.
