

## MODERN LITTER BIN LEISURE

Product Code: SFD362

### PRODUCT DESCRIPTION

The 'Modern' range is based on a simple, straightforward composition with a discrete base and solid wooden square slats. The plain and unadorned 'Modern' range can be integrated long term into any type of landscape.

**Ideas:** Full attention has been given to the base of the 'Modern' range to make it as discrete as possible without losing any of its stability.

**Design:** The strong visual presence of the bin is created by its shape, thickness and the materials used to make it.

**Quality:** The bins are made of softwood or tropical hardwood, also known as 'ironwood' due to its exceptional resistance and attractive appearance.

### SPECIFICATIONS

Weight	81.00 kg
Width	500mm
Depth	500mm
Height	940mm
Fixing	Surface Mounted
Material	Timber
Colour	Natural
