

3 HOOP SHEFFIELD TOASTRACK

Product Code: SFD403

RECOMMENDED SPACING REQUIRED
We recommend allowing a space of 100mm between cycle stands. This creates enough room to fit a standard padlock across one stand and lock either side of the stands together.

These spacings are advised for:
 • Sheffield Cycle Stands
 • Sheffield Toastracks
 • Hooped Cycle Stands
 • Prentiss Cycle Stands

PRODUCT DESCRIPTION

The Sheffield Toastrack is perfect if you need a quick and easy solution to store multiple bikes. We can manufacture the Sheffield Toastrack with as many or little hoops as you require. Each hoop will hold 2 bikes. The 3 Hoop Toastrack can hold 6 bikes. You can secure the Sheffield Toastrack to the ground with only 4 anchor points.

If you are looking for a Sheffield Cycle with more or less hoops please contact one of our trained advisers and they will be able to let you know the best price, while speaking with them why not ask about which products go with the Sheffield Toastrack.

*Powder coating may require a longer lead time
