

BLACK BULL REMOVABLE PROTECTION GUARDS

Product Code: SFD547

PRODUCT DESCRIPTION

Use the Black Bull removable protection guards wherever access is required from time to time to plant and machinery. The guards eliminate time consuming operations in removing permanently fixed protection guards.

The Black Bull removable protection guards are easily installed by means of the anchor plates which are secured to the floor with anchor bolts. Position the legs of the guard into the holes in the plates slide the flanges under the lip and secure the screws provided. Cover plates are provided to reduce the ingress of dirt etc.
