

## CONTROLLER PLUS DROP DOWN POST

Product Code: SFD518

## PRODUCT DESCRIPTION

The Controller Plus is engineered to blend with and complement modern building styles, but without sacrificing any of the security features of our range of parking posts, making it suitable for installation in private car parks, drives and commercial properties.

The Controller Plus is very easily operated – to lower simply unlock and give a gentle push and the post reclines to the ground. To return to the upright position simply press the pedal located in the base.

The post features a very low 75mm in the lowered position making it suitable for use with most cars.
