STRATTON ECO ILLUMINATED TIMBER BOLLARD

Product Code: SFD593

PRODUCT DESCRIPTION

Stratton Eco Illuminated Timber Bollard. Create a stunning display with our stylish range of solid wooden lighting bollards. Fitted with an energy-efficient LED lamp unit.

Can be used in many places including, decking areas, driveways and paths etc

A slightly smaller version of the Stratton Single this lighting bollard is sure to make an impact whereever you put it. It will give you years of reliable service.

Made from components that can be recycled or naturally decompose at the end of its useful life. Style doesn't have to leave a legacy long after the light has been finished with.

Each bollard is given a Danish oil finish before leaving the factory. It brings out the fantastic colours and grain and ensures it stays that way.

Milled from "green" timber this lighting bollard will crack, twist and warp over time – this is completely normal and just adds to the character, no two bollards will ever be the same!

Quick and easy to install, simply create a hole in the ground and fix it in place with your preferred concrete mix. Then connect the power using a waterproof electrical connector (not supplied) – simple!

- 240v power & flying lead
