

WINSLET SEAT

Product Code: SFD270

PRODUCT DESCRIPTION

The Winslet Seat combines durability with timeless style, making it a perfect addition to any outdoor space. It features six tropical wooden slats (each measuring 35x110mm) with an open-pore varnish finish, offering both elegance and weather resistance. The slats are securely fastened with stainless steel screws for long-lasting stability.

The seat is supported by robust cast iron legs, painted in a sleek hammer grey finish as standard. For a modern alternative, anodised aluminium (AG3) legs are available on request.

Availability: In stock with a fast 5-working-day turnaround.
