

PROTECTIVE WHEEL STOPS

Product Code: SFDEV11

PRODUCT DESCRIPTION

Protective Wheel Stops are necessary for forcing vehicles to come to a complete stop when parking. This is important for car parking spaces that offer charging ports for electric vehicles, as it protects the charging port from being accidentally damaged by the vehicles intending to use it.

Manufactured from highly compressed recycled rubber for a long service life. Is made in a standard black rubber with white reflective panels for increased visibility. Also include covers for the fixing bolt holes. Fixing bolts included.

Dimensions (L x W x H):

550 x 150 x 100mm

900 x 150 x 100mm

1,200 x 150 x 100mm

1,800 x 150 x 100mm

SPECIFICATIONS

Length	550mm
Width	150mm
Height	100mm
Fixing	Surface Mounted
Material	Rubber
Colour	Black
