

SEBASTIAN SEAT

Product Code: SFD201

PRODUCT DESCRIPTION

The Sebastian Seat is a UK manufactured timber bench that can seat up to 3 people.

This is a quality yet simple product that fits into most environments satisfying the need for seating space in public or private outdoor areas. Great for pubs and beer gardens as light enough to be moved around as needed.

This 6ft seat has a comfortable backrest and armrests at both ends to assist with sitting and rising.

The timbers are preasure treated for longevity.

The product is supplied flat packed and requires assembly.

Timber Information: With changes in temperature and humidity timber can exhibit a variety of natural features. These are known as shakes and appear as the timber dries out and loses its moisture content. As timber is a natural product this is to be expected and does not affect the strength or durability of the product. From time to time our products may present a colouration on the surface. This is from the pressure treatment process and will fade over time. Again this does not affect the durability of the product.

SPECIFICATIONS

Length	1829mm
Depth	555mm
Height	900mm
Fixing	Surface Mounted
Material	Timber
Colour	Galvanised
